

# TefaFix® F

## TECHNICAL DATA SHEET

| SIHGA®<br>objektpack® |    | TefaFix® F |         |                |
|-----------------------|----|------------|---------|----------------|
| Art. No.              | PU | Type       | Surface | Length<br>[mm] |
| 52102                 | 10 | 4400       | blank   | 4400           |
| 52012                 | 10 | 4400       | SC 9    | 4400           |

### DETAILS

- 1-piece system
- prefabrication of the parts possible by screwing on the rear

To attach the TefaFix® F, we recommend BohrFix® FB 4.2 x 28/43 in stainless steel. Due to the linear expansion of the TefaFix® F, we recommend pre-drilling the hole for the fixing screw at least 2 mm larger.
