

SIHGA® Special Edition

COLOURED WOOD ADHESIVES – FUNCTION MEETS DESIGN

WHAT IS THE SIHGA® SPECIAL EDITION?

Our timber fasteners impress not only with their high load-bearing capacity and durability, but also with their unique appearance: thanks to powder coating in various colours, they blend harmoniously into any construction project or add distinctive accents.

Coating is possible for the following products:

- Herakulix® KI 200,
- Herakulix® XS, S, M, L, XL
- Stabilix C/H
- WabaFix® WF

THE ADVANTAGES AT A GLANCE:

- ✓ **Versatile colour selection:** Perfect adaptation to wood types, architecture or design requirements
- ✓ **Powder coated:** Protection against corrosion, UV radiation and weathering
- ✓ **Robust & durable:** Maximum safety for load-bearing connections in timber construction
- ✓ **Visually appealing:** Connections that not only hold, but also catch the eye
- ✓ **Durable:** Colour and shape retention over many years

Whether indoors or outdoors, our colour powder-coated fasteners combine technology, protection and design – for modern timber construction projects with personality.

Price on request - Please contact your application specialist for further information

ATTENTION: Only the visible elements are powder-coated; matching screws are not available in colour
