

DielenFix[®] DF

TECHNICAL DATA SHEET

SIHGA [®] objektpack [®]	Dimension DielenFix [®] DF	Plank Thickness mind.	Average Quantity/m ² *
Art. No.	PU	Type	Pieces
34119	300	DF 17	33
34129	300	DF 22	33
34139	300	DF 28	33

*assuming: Axial distance substructure = 0.5 m and plank width = 12 cm
 calculation quantity = m² : distance substructure [m] : (width terrace plank [m] + joint [m]) x 2

BohrFix[®] FB

Ø 4,2 x 17/22/28

L-BohrFix[®] FB

Ø 4,5 x 29

DETAILS

- made from hardened stainless steel
- fastens planks invisibly screwed
- selection of three screw lengths, therefore optimised fastening of the different plank thicknesses from 19 mm
- variable adjustment of the visible joint (0 - 15 mm)
