Dimensioning template

Quantity determination for facade

Quantity determination (without reserve)

Substructure: $\frac{\text{Surface (m}^2\text{)}}{b \text{ (m)}} =$ Substructure (running metres) for KompeFix quantity determination

Façade fastening: $\frac{\text{Surface (m}^2\text{)}}{b \text{ (m)}} =$ Substructure (running metres)

$\frac{\text{Substructure (running metres)}}{(X+Y) \text{ (m)}} =$ Attachment (unit)
(Calculate visible screw connection twice, except in the case of single attachment)

Accessories:

Depth gauge	<input type="checkbox"/>
KompeFix	<input type="checkbox"/>
FugiFix	<input type="checkbox"/>

Note:

Theoretical number of products + 15% surcharge = number of products for the offer.
